WARREN'S THIS IS AN OLD AND RELIABLE REMEDY Coughs, Colds, Bronchitis

Asthma, Croup, Whooping Cough, Diphtheria, etc. It was originally prepared by the advice and under the supervision of one of the most skillful physicians of the country. From the very first it took high rank among the specifics for those diseases, and ever since it has been growing in favor with the people and the medical profession, as the large number of testimorials on our possession will show. It is pleasant to take and offords quick relief. We offer it to the public, confident that it has no equal for the purposes for which it is commoded.
